H. B. No. 101

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. The adjutant general of Ohio is hereby authorized to secure the publication in book form of a complete roster of all the soldiers and sailors of the revolutionary war, buried in Ohio, the data for which has already been collected by the Ohio Daughters of the American Revolution, and presented to the state.

SECTION 2. Such roster shall contain the principal items of the record of each soldier or sailor of the revolutionary war who is buried in Ohio. The binding shall be done at the state bindery under the direction of the superintendent of purchase and printing.

SECTION 3. Two thousand copies of such roster shall be printed, to be distributed as follows: three hundred copies shall be delivered to the state librarian for distribution by him, to the libraries of Ohio and other states, provided that one copy be sent to a library in each county; two hundred copies shall be delivered to the Daughters of the American Revolution for distribution among their own chapters; fifty copies to the adjutant general; and two copies to each member of the General Assembly.

SECTION 4. For the printing, stock and binding of the roster as provided for in this act there is hereby appropriated out of any moneys in the state treasury to the credit of the general revenue fund, and not otherwise appropriated, not to exceed the sum of two thousand dollars. The appropriation herein made shall be for the use of the adjutant general in carrying out the provisions of this act.

FOREWORD

The records contained in this Roster were presented by the Daughters of the American Revolution to the State of Ohio as a tribute of respect to the hardy pioneers who transplanted to this State the noble ideals for which they fought from 1775 to 1783, and who now sleep the last sleep beneath its soil.

The 87th General Assembly of Ohio accepted the gift of these records from the Daughters of the American Revolution and provided an appropriation for their publication as a part of the Military records of the State. The Roster is not designed as a genealogical reference book, although it may be of service in tracing pioneer ancestry. Its primary object is to present an authetic and complete list of Revolutionary soldiers buried in this State. Research has extended over a quarter of a century, and had it not been for the patriotic service given gratis by Ohio men and women the compilation of these records would not have been possible. No detail was too insignificant for these searchers; county cemeteries were investigated by faithful Chapter chairmen of the D. A. R.; newspapers gave freely of their space; the U. S. Bureau of Pensions gave valuable aid and many persons were assiduous in searching the D. A. R. lineage books and the published lists of the Sons of the American Revolution.

Contained herein are many records of proven service, but there are some which may never be proved though the service given by the individuals is beyond question. Information in many instances was meager, but this, it is felt, can be corrected by adding to the Roster additional records which are now or will be in the future under investigation. The chapter or person who filed the data is responsible for the authenticity of the record and any communication should be carried on with them. Filing of the records was begun by Mrs. Eugene Kennedy, Dayton, Ohio, during her term as State Chairman of Historical Sites and Revolutionary Graves, 1920 to 1923, and the Roster was compiled by the present State Chairman who submits the work in answer to the toast of David Morris, Revolutionary soldier, who pleaded at a patriotic meeting held at Troy, Ohio, July 4, 1827—

> "May the precious blood that was spilt between the years '75 and '83 as a sacrifice for our liberty and independence be ever commenorated."

Lest the reader should wonder at the large number of Revolutionary soldiers buried in Ohio, it should be recalled that the present boundaries of Ohio were nearest the original colonies, and when land grants were given to the soldiers thither came the hardy New Englanders to the Western Reserve and the region of Lake Erie; sturdy Pennsylvanians crossed over into central Ohio and the Virginian and Carolinian took up his abode in the southern part of Ohio. Here in the Northwest Territory they lived and died; they were fathers of a race who inherited the invincible courage and sterling qualities of the Revolutionary soldier and who took up the burden of founding the Nation by pressing westward.

Dr. John Hole, died January 6, 1813, in the 58th year of his life." His wife is buried at his side. GM Richard Montgomery Chap, S. A. R., with official bronze Montgomery Co marker July 1, 1919. In 1796 he moved west in covered wagon and located at Cincinnati, but after prospecting up the Miami Valley in 1797 he moved his family to Silver Creek where he finally (about 1799) located 1440 acres of land, paying for it in military bounty land warrants for his Revolutionary services. He came fr a family of Baptists and was the first person baptized in Silver Creek. Here he built his cabin and reared his family of six children. The creek was renamed "Hole's Creek" and retains the name at this time. His long army service indicates that he was the peer of his contemporaries in the medical profession. Traditions of the neighborhood testify that his pretentious log cabin was long the center of pioneer hospitality and culture. He was the first physician in the locality, and although his practice extended over many miles of territory he found time to build and run two mills south of Dayton. He received his literary and medical training in Germany where he was sent in 1766. Socially he entertained Washington, Jefferson, and the best, socially, in the Revolutionary times in his NJ home. It was at the suggestion of Dr. Hole that this county was named "Montgomery" for Gen Richard Montgomery, who fell mortally wounded at Quebec, while leading his troops on Dec 31, 1775.
